

Setup

```
python -m pip install -r my-correlation-bots/utils/requirements.txt
cp my-correlation-bots/.env.polymarket.example my-correlation-bots/.env.polymarket
cd my-correlation-bots/utils
```

Scripts And Examples

poly_api_free_endpoints.py

Prints the main free/public Polymarket API groups.

```
python poly_api_free_endpoints.py
```

poly_search_markets.py

Searches active markets and prints outcome token IDs.

```
python poly_search_markets.py --query "weather" --limit 10
```

poly_clob_price.py

Gets midpoint, spread, BUY/SELL prices, and orderbook.

```
python poly_clob_price.py --token-id TOKEN_ID --book --depth 5
```

poly_clob_derive_api_creds.py

Derives CLOB API credentials from PRIVATE_KEY.

```
python poly_clob_derive_api_creds.py --show-secret
```

poly_clob_limit_order.py

Previews or submits a limit BUY/SELL order.

```
python poly_clob_limit_order.py --token-id TOKEN_ID --side BUY --price 0.45 --size 5
```

poly_clob_market_order.py

Previews or submits a FOK/FAK market-style order.

```
python poly_clob_market_order.py --token-id TOKEN_ID --side BUY --amount 10 --worst-price 0.55 --type FOK
```

poly_clob_orders.py

Lists, gets, or cancels authenticated CLOB orders.

```
python poly_clob_orders.py list
```

polymarket_template_utils.py

Shared helper imported by scripts; do not run directly.

```
imported automatically
```

Exact .env.polymarket Values

```
PRIVATE_KEY=0xYOUR_PRIVATE_KEY
CLOB_API_KEY=your_clob_api_key
CLOB_SECRET=your_clob_secret
CLOB_PASS_PHRASE=your_clob_passphrase
CLOB_HOST=https://clob.polymarket.com
POLYMARKET_CHAIN_ID=137
POLYMARKET_SIGNATURE_TYPE=0
POLYMARKET_FUNDER=0xYOUR_WALLET_OR_DEPOSIT_WALLET_ADDRESS
```

What Each Value Means

PRIVATE_KEY

Your wallet private key. Needed to derive CLOB credentials and sign live orders.

CLOB_API_KEY

Credential derivation output. Needed for authenticated CLOB calls.

CLOB_SECRET

Credential derivation output. Needed for authenticated CLOB calls.

CLOB_PASS_PHRASE

Credential derivation output. Needed for authenticated CLOB calls.

CLOB_HOST

Production CLOB endpoint. Leave as https://clob.polymarket.com.

POLYMARKET_CHAIN_ID

Polygon mainnet. Leave as 137.

POLYMARKET_SIGNATURE_TYPE

Account type: 0 EOA, 1 Polymarket proxy, 2 Gnosis Safe, 3 POLY_1271 deposit wallet.

POLYMARKET_FUNDER

Address that owns funds. For simple EOA, use your wallet address or omit.

Basic Flow

- Search market -> copy TOKEN_ID from the outcome you want.
- Check price/orderbook before choosing price and size.
- Run order script without --live first and read preview.
- Add --live only when token, side, price, and size are correct.
